Step 2: Use Participant Creation API to create participant id.

URL for Production:

<https://apisprod.nha.gov.in/pmjay/hcx/participanthcxservice/v2/participant/create>

URL for Sandbox:

<https://apisbx.abdm.gov.in/pmjay/sbxhcx/participanthcxservice/v2/participant/create>

Validations:

- The registry type should be valid and one from the Valid Registry Enums directory provided.
- The role should be valid and one from the Valid Role Enums directory provided.
- The mobile number should be a valid one and is already registered in the system.

For Providers: The mobile number will be validated with the one recorded in the HFR and both should match for the call to be successful.

For Payers: The mobile number will be validated with the one recorded in the NHCX Payer details and both should match for the call to be successful.

- The passcode will be sent the registered number after successful validation and the transaction id will be shared in the response; both can be further used for confirmation.
